### **Sentry Logistic Solutions Hosts Building Dedication**

Company Showcases New BioPharmaceutical Cold Chain Storage & Logistics Facility

**INDIANAPOLIS** (May 17, 2006) – Sentry Logistic Solutions announced that it will host a private dedication ceremony at its 53,000 square foot biopharmaceutical warehouse and logistics hub on Thursday, May 18 at 4 p.m. The event will be held at the company’s new facility in AmeriPLEX Park, 4605 Decatur Boulevard, Indianapolis.

“Sentry’s success is a result of commitment and collaboration on the part of many extremely supportive individuals and partner organizations,” said Jennifer Marcum, Sentry’s chief executive officer. “We want to take this opportunity to extend our appreciation to everyone who has contributed to, and continues to impact, our success.”

The company’s \$8 million custom-built cold chain command center is designed exclusively to meet the stringent compliance and quality requirements of the worldwide biopharmaceutical industry. The facility boasts classification as a Highly Protected Risk Facility (HPR), a broad range of cold storage options, international logistics capabilities and advanced inventory management and tracking systems.

“Sentry has demonstrated great confidence in our economy by selecting Indianapolis as its base of operations,” said Jeb Conrad, executive director of Indianapolis Economic Development (IED), which assisted Sentry in securing tax incentives for the building of its corporate headquarters. “Since Sentry broke ground last August on its new facility, the Indianapolis region’s important life sciences economic cluster has continued to expand. The critical services that Sentry offers the biopharmaceutical industry will be instrumental in attracting global business to our city and will contribute to the continued growth of Indiana’s life sciences market.”

### **About Sentry Logistic Solutions**

Sentry Logistic Solutions is one of the few cold chain storage and third party logistics providers (3PL) in the U.S. to exclusively serve the global pharmaceutical and biotechnology industries. Its facilities, infrastructure and services are specifically designed to meet the warehousing, packaging and logistics needs of pharma and biotech firms, contract research organizations (CROs), contract manufacturing organizations (CMOs), wholesalers, distributors and government entities. Sentry stores and handles bulk
